# WRIGHT OLUWASEYI TEMITOPE

**Lagos, Nigeria**

Phone: **(+234) 81 3246 5117** │Email: **topwrightdev@gmail.com** | LinkedIn: **Wright-Temitope**| Portfolio: **Top-Wright**

## CAREER SUMMARY

Results-oriented **Fullstack Engineer** with over **5 years of hands-on experience**, specializing in **Frontend Development** and delivering scalable, high-performance **web and mobile applications**. Proven expertise in **React.js**, **React Native, Vue**, **Next.js, JavaScript/TypeScript**, **HTML5, CSS3, Tailwind CSS**, and **responsive design principles**. Adept in integrating **RESTful APIs**, optimizing application **performance**, and implementing **clean, maintainable code** using **Agile methodologies** and **Git-based workflows**.

Demonstrated ability to **lead end-to-end development lifecycles**, from **UI/UX design** and **architecture planning** and **testing**. Strong background in **Node.js**, **Express.js**, and **MongoDB)** and **version control (Git, GitHub, GitLab)**.

## WORK EXPERIENCE

**LIVEIZY – (**Lagos**,** Nigeria**)**                                                                                                        **June 2024– Present**
*Lead Frontend Engineer*

- **Collaborated with Backend Engineers and QA Teams** to **design, develop, and optimize high-performance web applications** for **home rental services**, resulting in a **80% improvement in user satisfaction scores** through enhanced **UI/UX functionality**.
- **Spearheaded development** of core digital products including the **Liveizy Web App**, **Liveizy Admin Dashboard**, and **IzyBiz E-commerce Platform**, helping drive a **70% increase in platform engagement** and contributing to the successful rollout of multiple high-impact features.
- **Implemented advanced frontend performance optimizations** and **robust security protocols** (e.g., input validation, HTTPS, and secure authentication), ensuring **compliance with industry standards** and protecting sensitive **user data**.
- **Engineered internal tools** for **property management** and **customer support**, streamlining **operational workflows** and reducing manual intervention by **65%**, resulting in **faster response times** and **enhanced service delivery**.
- **Introduced and integrated modern technologies** such as **TanStack Query** for efficient **server-state management**, **Framer Motion** for **high-quality animations and micro-interactions**, and **Firebase** for **real-time database and authentication**, resulting in **faster development cycles**, **improved app performance**, and a more **engaging user experience**.

**REVOCUBE TECHNOLOGIES – (**Lagos**,** Nigeria**)**                                                                       **July 2023 – June 2024**
*Frontend Engineer*

- **Collaborated with cross-functional teams** including **designers, product managers, and backend developers** to **gather technical and business requirements**, resolve **complex frontend issues**, and deliver **scalable, high-performing applications**. Maintained a proactive approach to **industry trends** and **best practices** to ensure **modern, reliable solutions**.
- **Designed and developed a suite of internal administrative tools**, such as **HR management systems**, **financial tracking dashboards**, and **project management platforms**, which led to a **70% increase in operational efficiency** and reduced manual workflows across departments.
- **Built and deployed interactive educational applications** to support **remote learning**, enabling **real-time collaboration**, seamless **content delivery**, and engaging **user interfaces**. Implemented **end-to-end data security measures**, ensuring **compliance with data privacy laws** (e.g., **GDPR**, **local regulations**) and protecting **sensitive user information**
- **Rebuilt and standardized a comprehensive Project Management Application**, integrating key modules such as **Clock-In/Clock-Out**, **Task & Project Tracking**, **CRM Sales Management**, **Performance Evaluation**, and **HR Assessments**. This led to a **80% improvement in team productivity**, enhanced **cross-departmental visibility**, and streamlined **workforce and sales operations** within a single unified platform.
- **Revamped the Revocube Tech website** using **modern, responsive design principles** and **soothing animations** powered by **GSAP**, resulting in a more **engaging user experience** and increased **visitor retention**.
- **Developed a feature-rich Home Rental Application** with a clean, intuitive **UI layout**, incorporating **complex functionalities** such as an **interactive calendar for booking**, **real-time availability checks**, and a secure **checkout system**, significantly improving **user satisfaction and conversion rates**.

**BLAKCODES INC – (**Lagos, Nigeria**)**                                                                                            **May 2021 -June 2023**
*Fullstack Engineer*

- **Designed and developed scalable frontend applications** for **SmartEdu**, an emerging **EduTech platform**, delivering **user-friendly learning experiences** to over **2,000 students across Lagos**, and supporting the platform's rapid growth.
- **Built intuitive, conversion-optimized user interfaces** for multiple **client-facing applications**, resulting in a **75% reduction in user abandonment rates** and a **60% increase in customer purchases**, significantly enhancing client ROI.
- **Facilitated the training and mentorship of 20 aspiring full-stack developers**, delivering hands-on instruction in **modern frameworks** (e.g., **React**, **Node.js**), **best coding practices**, and **project-based learning**, helping accelerate their **career readiness and job placements**.
- **Led a UX/UI redesign initiative** by collaborating with **cross-functional teams** to analyze **user personas**, conduct **usability testing**,

and iterate on design prototypes. Achieved a **50% boost in user satisfaction** and reduced user error rates by **25%** through improved accessibility and flow.

**BLAKCODES INC – (**Lagos, Nigeria**)** March 2020 – April 2021
*Intern*
- Helped create intuitive and engaging user interfaces for client projects, contributing to a decrease in user drop-offs and boosting overall customer interest and engagement.
- Worked closely with cross-functional teams on a UX/UI redesign project by analyzing user feedback, participating in design testing, and contributing to improvements that increased user satisfaction and reduced usability issues.

## SKILLS & TOOLS
- **LANGUAGES:** HTML | CSS | SASS | JAVASCRIPT | TYPESCRIPT
- **FRAMEWORKS AND LIBRARIES:** REACT | NEXT.JS | REACT NATIVE | REDUX | VUE | NODE | EXPRESS | TAILWIND | MATERIAL UI
- **TOOLS AND SOFTWARES**: FIREBASE | SUPERBASE | STRAPI | SANITY | RESTFUL APIs | BABEL | WEBPACK | JEST | GIT | GITHUB | GITLAB | VS CODE/TRAE | FIGMA | CHROME DEVELOPER TOOLS | GSAP |FRAMER MOTION | THREE.JS | POSTMAN | SLACK | BITBUCKET | REANIMATED | EXPO
- **PERFORMANCE OPTIMIZATION:** LAZY LOADING | CODE SPLITTING | PERFORMANCE AUDITS | MOBILE-FIRST APPROACH | MEDIA QUERIES
- **OPERATING SYSTEMS:** WINDOWS | LINUX | MAC OS

## TECHNICAL PROJECTS

**SENDFORCE BACK-OFFICE APP: A logistics and order-tracking application where admins can manage and track requests and orders, with real-time tracking – [WEBSITE](#)**

**SANEF: A custom application for SANEF Creatives Limited, a Bankers' Committee initiative, aimed at supporting key projects like the restoration of the National Theatre and the reconstruction of 40 police stations across Nigeria - [WEBSITE](#)**

**REVOCUBE SPACES: A web application for apartment rentals featuring location-based search functionality, detailed apartment listings with photos and amenities, booking capabilities, and real-time communication tools between users and property owners. [WEBSITE](#)**

**CLASSCUBE PRO: A cutting-edge Learning Management System that provides a comprehensive online learning environment. It offers a range of tools and features to facilitate effective learning, course management, and collaboration for educators and learners. [WEBSITE](#)**

**LIVEIZY: A technology-driven, home-rental services application that helps people live better lives, through easy access to quality homes-to-rent, rent-financing, rental-home management, and other essential services. [WEBSITE](#)**

## EDUCATION

**NATIONAL INSTITUTE OF INFORMATION AND TECHNOLOGY –** *Lagos, Nigeria* 2018 – 2022
*Diploma In Software Engineering*
- **Relevant Coursework:** Software Engineering; Discrete Mathematics; Databases; Data Structures & Algorithms; Systems Programming; Operating Systems; Research; Human-centered Design; Entrepreneurial Leadership, Python

## OPEN SOURCE CONTRIBUTION & VOLUNTEERING WORK
- **Involvement at the UNSTACK AFRICA** - Volunteered for UNSTACK AFRICA, a tech community meetup in Lagos State, Nigeria, dedicated to empowering the next generation of entrepreneurs and marketing teams with a unified system for business growth.
- **Participation in TECH FEST** - Part of a community initiative that trained over 500 rural students on programming, design, and writing for free.
- **SODACHI MPOWER**: Contributions to a community initiative that actively trains young adults/teenagers on coding for free.
